Before you invest in any fund, consider how the fund would work with your other investments and your tolerance for risk.

This Fund is an alternative mutual fund. It is permitted to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. The specific strategies that differentiate this Fund from other types of mutual funds include: increased use of derivatives for hedging and non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies will be used in accordance with the Fund's investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

The Manager has rated the volatility of this Fund as **Medium**.

Because this is a new fund, the risk rating is only an estimate by the Manager. Generally, the rating is based on how much the Fund's returns have changed from year to year. It does not tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a medium risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the specific risks of investing in a mutual fund?" section of the Fund's simplified prospectus.

No guarantees

Like most mutual funds, the Fund does not have any guarantees. You may not get back the amount of money you invest.

Who is this Fund for?

This Fund may be right for you if:

- You are looking for an alternative mutual fund that seeks capital appreciation by investing in a long-short portfolio of Global equities
- you are seeking capital gains over the long term; and
- you can tolerate a medium level of risk.

A word about tax

In general, you will have to pay tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I (Institutional US\$) of the Fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges:

You do not pay any sales charges for purchases of Series I (Institutional US\$) of the Fund.

2. Fund Expenses:

You do not pay these expenses directly. They affect you because they reduce the Fund's returns.

The Fund's expenses are made up of management fees, performance fees, operating expenses and trading costs. The annual management fee for Series I (Institutional US\$) of the Fund is 1.0% of the aggregate net asset value of Series I (Institutional US\$) of the Fund on the preceding business day. Because this Series is new, its operating expenses and trading costs are not yet available.

The Fund pays the Manager a quarterly performance fee equal to 20% of the amount by which the total return of the Series I (Institutional US\$) of the Fund exceeds the blended benchmark consisting of (50% MSCI World Net Total Return Hedged Index in USD and 50% ICE BofA US 3-Month T-Bill) and its perpetual high water mark for the Series I (Institutional US\$). The total return is calculated after accounting for all other expenses of the Fund. Performance fees will be calculated and accrue daily. The Fund's expenses, including the management fee and performance fee, are subject to applicable taxes.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own Units of the Fund. It is for services and advice that your representative and their firm provide to you.

No trailing commissions apply to Series I (Institutional US\$) of the Fund.

3. Other Fees:

You may have to pay other fees when you buy, hold, sell or switch Series I (Institutional US\$) of the Fund.
